

# Proposal for the 9th edition of the international conference FIMH 2017 to be held in Toronto, Canada

The 9th edition of Functional Imaging and Modelling of the heart (2017) will aim to integrate the most current research and development efforts in the fields of cardiovascular imaging, image analysis and computational modeling of the heart. The main goal will be to encourage collaboration among trainee scientists (engineers, physicists, mathematicians) and clinicians working in functional imaging of the heart, signal/image processing, imaging, biophysics, biomedical engineering, applied mathematics, and experts in cardiology, radiology, physiology and biology.

**Tentative dates/location:** 28-30 May, 2017 -- Toronto, Canada

**Estimated costs:** 1) **registration fee (including: Proceedings, conference dinner, social event, all lunches/coffee breaks):** 400 \$ for students and 500 \$ for senior participants;  
2) **accommodation:** 150 \$/night (breakfast included).

## Proposal submitted by:

Dr. Mihaela Pop and Dr. Graham Wright
